

Aviation Maintenance Project Update

## *The Stevenson Family*

## **New Year's Greetings to All!**

We rejoice in the joy of watching the Lord work; in being a part of something so vital in these last days - these last hours of this earth's history. We are here for such a time as this, you in your capacity to serve, and our family, serving here at AWA Headquarters to impact the world. Together we are able to reach so many for God's kingdom.

## **A Short Event**

We had an opportunity in December to attend our only aviation-themed public event of 2020; the Sun 'n Fun Holiday Flying Festival and Car Show in Lakeland, Florida. Though it was a short event of barely a day and a half, we were blessed to witness to people all the way

through; even on the road while traveling. We planted seeds. We ministered through prayer. We saw the deep need for the Word of God being lived out in us to share with others. There weren't many that attended the event in light of Covid, but those that came were there to be uplifted in some way. Some even found that lifting when they came and talked to us; touched in ways they didn't expect. Some were puzzled at our presence, but most were appreciative when our faith was the topic of discussion rather than worldly concerns.

Everything we do matters, especially right now. Either we impact people for God's kingdom, or we impact people for Satan's camp. Everything we do, beloved, matters.

1 Corinthians 10:31 reminds us that "whatever you do, do all to the glory of God." Imagine if it was only Christ seen in us—that's where the work of sanctification is taking us through God's Spirit!

## Angel Flight for Melanie

Recently, the work of Christ to uplift and transform was carried out through another angel flight. Melanie, a woman from Greer, South Carolina, was flown to John Hopkin's Cancer Treatment Center in Maryland by Pastor Ric Swaningson and Bruce Wilkerson (AWA EVP). The cancer treatment she received was in preparation for a grueling 22 hour spinal surgery she is scheduled for this year. Melanie had been treated for years for the wrong type of cancer and had finally been diagnosed correctly. After her treatment was completed, Pastor Ric returned to bring Melanie back home. Kyle flew as co-pilot. Please pray for Melanie!

When weak with cancer, a long road to travel from SC to D.C. is just too much. Melanie's husband had done it once with her already and dreaded to do it again. When Pastor Ric and Kyle brought Melanie back from her week-long treatment, Kyle recalls the reunion was amazing. Melanie's husband was so touched that a ministry would help his family with such an act of love. AWA not only took his wife to her treatment, but returned her safely afterwards. Kyle says Melanie's husband had very few words, but his expression said it all; speechless, profound and teary-eyed gratefulness. He and his children were overjoyed to have Melanie home safely again.

## You Are a Part of This

This happens all the time in the foreign field. Hope is restored and faith is born and nurtured because someone with the love of Jesus took the time to care and lift a brother or sister in their hour of need. You, dear reader, are a part of this. Your prayers, your financial support, your involvement, are the tools to lift the downtrodden and those in need into the loving arms of Jesus.

How soon He is coming! Let us continue to press forward in our work until then.

*Coming again, coming again; Jesus is coming again!*

*Until next month!*
