

Guyana Mission Project Update Midwest Mission Project Update

WOOD ANTS AND MOLD

January 5, 2021 was the last day that AWA North American missionaries were in Guyana, at our project in Mabaruma. Travel restrictions are easing up a bit for visiting, but still a “no go” for many. Despite the disappointment, God has on queue the Hamombe Family to continue AWA’s work in Region 1, the Barima-Waini Region of Guyana.

In the meantime, wood ants have infested and have swarmed our Learning Center in Hobo Hill and our flat in Georgetown. The juggle tends to reclaim itself when left unchallenged. These vicious creatures, if not eradicated, can cause major damage to wood structures. Praise the Lord for Alfi and Sonita who tirelessly work to rid our dwellings of

these pests. With the abundance of water during the May rainy season there is undoubtedly the constant problem of mold which Alfi also helps to resolve. We are praying that the Hamombe Family (Pumelela, Tali and Daniel) will deploy to Guyana soon. The harvest awaits them, God’s people await them and so does the mission of bringing Hope to the people they encounter.

GUYANA PROJECT PRAYER REQUESTS

That the Hamombe Family grow a support team of prayer and financial partners that will join them in God’s mission in the Guyana interior.

That Pumelela’s request for student visa status be approved so that he can attain his FAA license.

MIDWEST UPDATE: NEW FRIENDS

The General Conference (GC) Session was held in early June in St Louis, Missouri, 20 minutes from our AWA Midwest office. Thus, we had the privilege of attending and enjoying most especially the worship programs. We saw and caught up with many “old” friends but made special new friends too; sisters and brothers-in-Christ that became family because of Divine appointments at the GC Session.

Humble and intelligent Pastor Noel Schultz from Guyana stayed in our home during the entire GC Session. He is an up-and-coming Pastor, and a candidate as the Caribbean Union Chaplain. He provided us many tips on how to preserve our goodwill in Guyana.

Joy Kauffman, FarmStew President provided us their Program Manual. As both organizations see the synergistic opportunities for mission collaboration, we agreed to begin the process of formalizing a partnership between our likeminded organizations (FarmStew and AWA).

The sweet and talented Munsey Family now hold a special place in our hearts. Mike and Narissa were missionaries in Taiwan for a few decades, where their now 17-year-old daughter, Oceana was born. Oceana has always loved flying as far as she can remember riding on airplanes while on furlough. A spiritual grounded young lady, she is currently the inspirational leader of @HereIAmSendMe360. On her own, she read and passed the Private Pilot Knowledge Exam without any formal aviation training. This is one of the key hurdles to obtaining a Private Pilot license. Subsequently, she was awarded 3 scholarships by AOPA (Aircraft Owners and Pilot Association) to complete her

Private Pilot License, which must be used within a year. Perhaps Oceana has a future with AWA...

Another mission opportunity for the Munsey Family was presented during the GC, to serve in Africa thus the dilemma. Please join us in praying that they heed the Holy Spirit’s leading in their individual lives as well as their family life.

Then He said to His disciples, “The harvest is plentiful, but the laborers are few; therefore, pray earnestly to the Lord of the harvest to send out laborers into His harvest.”

—Matthew 9:37-38

*God bless each one of you!
Bruce & Monique Wilkerson*

Bruce and Monique Wilkerson are project managers for Guyana and the Philippines. They are currently stationed at AWA Midwest in Belleville, Illinois.
