

## Philippines-Palawan Mission Project Update

### A YEAR IN THE MISSION

March is a memorable month for me as an employee of AWA Philippines. It's been a year since I joined this organization. Coming from a defeat from failing in the aircraft maintenance training program, this organization was the first to fetch me from rock bottom. I was so thankful to God for leading me in this ministry where I can further enhance my skill as an A&P Mechanic while at the same time doing God's work. Doing mission work is sometimes busy since you must be flexible in your skill set. Not only focusing on your field of expertise but also doing things you're not used to. Some may question why we settle for this kind of work wherein the aviation industry is a luxury profession, and we can earn much in the commercial airline industry. But little did they know

that using our God-given skills and talents in His work earns us many more treasures in heaven than in a non everlasting earth. I'm so grateful for the organization of AWA in our headquarters and our local team for accepting me and entrusting me to take good care of our Pathfinder plane. Thank you to our donors who contributed much to our work for God's glory. May you continue to support our organization with all your heart and be a channel of God's blessings. Rest assured, we will do our best to reach out to the unreached and tell them of God's love and His soon return. Mabuhay! Adventist World Aviation! To God be all the glory!
