

PARTNERING WITH THE PALAWAN MISSION

By Ronie Fiedacan

Adventist World Aviation-Philippines

We are now in the last quarter of 2025. In the Philippines, the spirit of Christmas is just around the corner.

While AWA Philippines waits for the resumption of our humanitarian flights, our staff are engaged not only in maintaining our runway but also in engaging with the community around the base. We partnered with the local elementary school, which has 272 students and 9 faculty and staff members, in their pursuit of quality education. We volunteered to participate in cleaning the school perimeter through regular grass trimming and also in the storytelling time in the library.

In partnership with the Palawan Mission of Seventh-day Adventists in the province, they distributed 10 transistor radios to students' families for use during the occurrence of a strong typhoon, when children cannot attend physical classes due to flash floods. The school will set up a mini radio station that broadcasts the lesson, allowing children to tune in to the designated radio frequency and listen using a transistor radio.

This coming December, we will give slippers to the students as part of our gift-giving efforts, this time in partnership with an insurance company.

Please continue to pray with us, and we ask for your generous support for our hangar project.

We need \$10,000.00 for this project.

Please Donate!
