

## LOOKING BACK TO LOOK FORWARD

By Mark Cabural

Adventist World Aviation-Philippines

The year 2025 is memorable for the AWA Philippines Project, as we experienced various challenges throughout the year. My fingers are just enough to count those challenges, but not enough to count God's blessings. Change is a double-edged sword that cuts through people's lives for better or for worse. But thank God for the assurance that He will lead the way for us to tread as we go through significant life changes. As we head into another year, we have another opportunity to share God's word, love, and blessings with those who need them in their lives.

Here in the Philippines, we're looking forward to resuming our flight operations as we welcome our newest Pilot, Damion Countryman. We are also working on completing our hangar flooring, painting jobs, and installing all the necessary essentials, including power and water sources. This will cost \$2,000 to be done.

We're also strengthening our relationship with the community as we build our own booth this coming March, as the nearby school will be hosting its reading bazaar, which promotes literacy among students and supports our local district's evangelistic efforts.

Additionally, we have visitors from the Armed Forces of the Philippines and the US Air Force and Marines who are planning to include our airfield in their "Balikatan Exercises," a joint training exercise between the military personnel of the Philippines and the United States of America.

We have many things to do throughout the year and a lot to be thankful for and to pray for. All of these plans and goals will be nothing without God's guidance and the help of our cheerful and generous donors. Stay tuned and fasten your seatbelts as we take off with God as our Captain.
