

A Life Changed in La Comunidad de Tronquera

BY AUDICIO JIMENEZ

In La comunidad de Tronquera, Nicaragua, a quiet but powerful transformation is taking place through the gift of Miskito Bibles. What may seem like a simple book to some has become a source of hope, healing, and lasting change for many families in this community. Through the faithful sharing of God's Word, people are encountering truth in their own language and discovering that God sees them, knows them, and loves them personally.

One of those lives is Juan's. Juan's story is a reminder that God's Word has the power to reach into the deepest places of pain and bring

real transformation. Like so many others, Juan once carried burdens that weighed heavily on his heart. But when he began reading the Bible, something changed. The promises of Scripture began to speak into his fear, his struggles, and his need for peace. What started as a simple moment of opening God's Word became the beginning of a new direction for his life.

Juan's testimony reflects what is happening across the region: hearts are being softened, minds are being renewed, and lives are being restored. The Bible is not just bringing information; it is bringing encouragement, healing, and a sense of purpose. In a place where

many have gone without access to Scripture in their own language, the arrival of these Bibles has become a true blessing.

Thousands of Miskito Bibles have already been shared, and the campaign continues. At only \$6 per Bible, this outreach is making it possible for more people in places like La comunidad de Tronquera to receive the life-changing message of God's love. Every Bible given is another opportunity for someone to meet Christ, find hope, and begin a new chapter.

Juan's story is just one example of what God is doing through this work. As more Bibles are distributed, more lives are touched, more families are strengthened, and more people discover the peace that only God can give.
