

Uganda Mission Project Update

A MIRACLE — The Runway Permit Signed.

by Bagonza Joy Margaret

Dear Esteemed Partners and Friends,

Greetings in the mighty name of our Lord and Savior Jesus Christ! We come to you today with a heart full of gratitude and with wonderful news to share about how your money, your prayers, and your partnership are causing real, lasting change in society.

Many of you have been walking with us through a long season of waiting, praying, and believing in God for developments in the Adventist World Aviation Uganda mission. Today, we are overjoyed to report a major breakthrough — a true miracle.

As you know, for months we have been seeking

official permission to construct the airstrip/runway — a critical piece of infrastructure that will enable medical evacuations, humanitarian missions, and economic development.

The official request letter that was sent to the office of Gen. Muhoozi Kainerugaba for approval and signing has finally been signed, amid the political transitions taking place in the country. This may look like a simple signature on paper, but to us, it is the hand of God moving.

This is an incredibly difficult season in our nation. Offices are overwhelmed, protocols are tight, and many projects have been told to wait. But God, in His perfect

timing, moved the hearts of people in high places. He made a way where there was no way. Proverbs 21:1 says, “The king’s heart is in the hand of the Lord; He directs it like a watercourse wherever He pleases.” We have witnessed this scripture come alive.

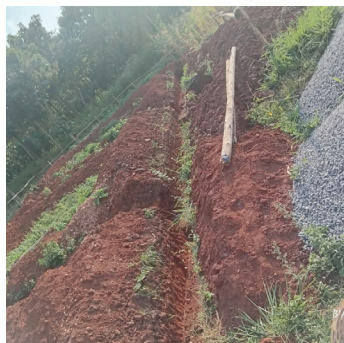

That signature means the door is now officially open for the runway construction to begin. Your support is not just building a runway. Your support is transforming education: this runway will allow us to bring in professors, partners, and students from across Africa and the world, making quality education accessible in a remote region. Saving lives: it will serve as a lifeline for emergency medical evacuations for our community, where roads are often impassable. Creating jobs and dignity: the construction phase alone will employ many local young men and women, and once operational, it will create sustainable jobs for families. Preaching the gospel through action: every flight that lands, every student who graduates, every life that is saved will be a testimony that God is still moving people in different times and seasons for His purpose.

We want you to know that you are part of this miracle. Without your faithful giving last year and this year, we would not have been able to sustain the surveys, the legal processes, and the persistent follow-up required to reach this point. With the permit signed, we are trusting God for the resources for earthworks, murram, and tarmac.

Please continue to pray with us for peace and favor as we work with the local district and aviation authorities, for the provision of construction equipment and materials, and for protection for our team.

Thank you for believing in us. Thank you for giving when it was hard. Your seed has broken through the hard ground of bureaucracy in a difficult political season, and it will bear fruit for generations to come. We are deeply grateful to you.
